

Step 1: Go to: <https://support.google.com/drive/answer/7329379>

Step 2: Click the “Download & Install Drive File Stream” link.

Use Drive File Stream with work or school

If you use the original Google Drive for Mac/PC application, you can uninstall it and install Backup & Sync or Drive File Stream.

[Uninstall Google Drive for Mac/PC](#)

Get started with Drive File Stream

You can find and open your files from Google Drive on your computer with Drive File Stream. You can:

- Save specific files and folders offline, including shared drives.
- View and organize your files in your computer's file system without using storage space.
- Open files on your computer.

Step 3: Select correct download for your device (Windows or Mac).

[Download & install Drive File Stream](#)

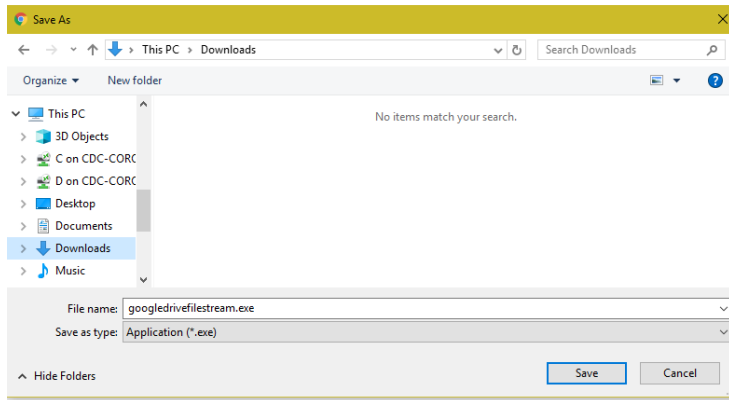

You might not be able to use Drive File Stream, or your organization might install it for you. If you have questions, [ask your administrator](#).

To download Drive File Stream:

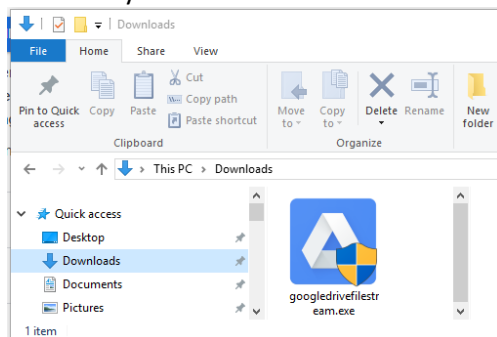

[DOWNLOAD FOR WINDOWS](#) [DOWNLOAD FOR MAC](#)

1. On your computer, open:
 - DriveFileStream.exe on Windows
 - DriveFileStream.dmg on Mac
2. Follow the on-screen instructions.

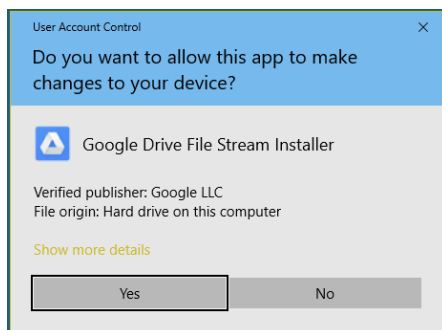

Step 4: Next, it will prompt you to save the file to your local computer. Save the executable download to a location that you can locate.

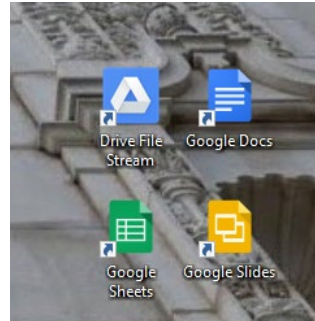

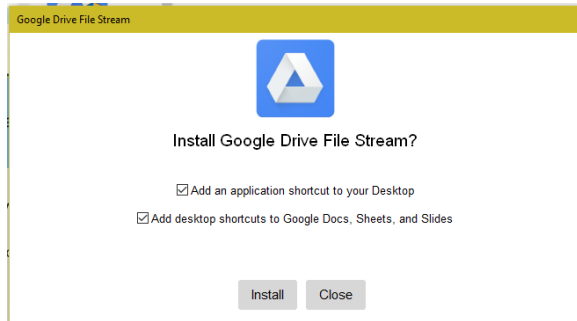

Step 5: Run the executable from the location you saved it, or click on the executable at lower, left-hand corner of your browser.

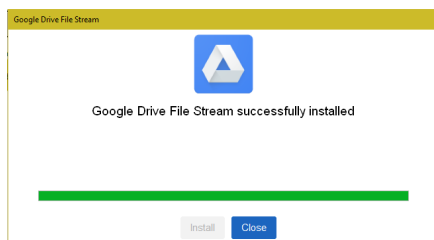

Step 6: Answer **Yes**, to allow this app to make changes to your device.

Step 7: If you would like to have Google Drive shortcuts (*pictured at right*) on your desktop, place a checkmark in the boxes, and click **Install**.

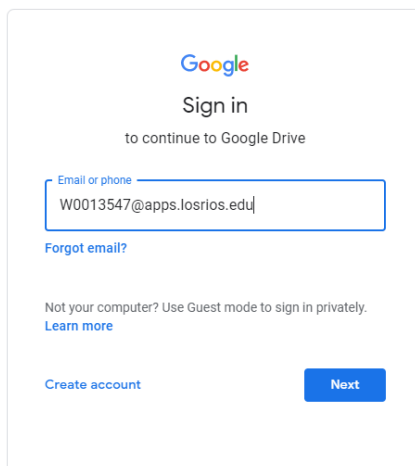

Step 8: Click **Close** when installation is complete.

Step 9: You will be asked to login to your account:

Please use your W0013547@apps.losrios.edu as the email.

Step 10: You will be routed to the [Los Rios Single Sign On page](#).

Please login with your **Los Rios credentials (WID)** as shown below.
