Recital Hall

Student Conversation:

What Do Our Students Really Need?

Cosumnes River College is committed to helping our students get what they need. But sometimes what college faculty, classified staff, or administrators think students need is different from what students think they need. Join CRC students, and the college community, for a frank conversation about what students really need.

OCT.
26

3:00-4:00pm
WIN-150
Community Room

Employee Conversation:

Pathways and the Importance of Employee Relationships

CRC has discussed many Pathways issues: Legislative impacts, meta-majors (houses), curricular implications, and examples of how community colleges across the state have implemented the pathways model. At this Campus Conversation, we will explore the importance of strong and healthy relationships between student support services faculty, instructional faculty, and classified professionals.
